PROFESSIONAL SUMMARY

UI/UX Designer and Product Designer with 3 years of experience creating user-centered web and mobile applications for hospitality, POS, analytics, and operational management platforms. Skilled in user research, wireframing, prototyping, responsive UI design, usability testing, interaction design, accessibility, and scalable design systems using Figma and Adobe XD. Experienced in delivering intuitive, business-focused digital products aligned with modern UX standards and agile product workflows

CORE SKILLS

UX Design: User Research, User Flows, Wireframing, Prototyping, Information Architecture, Usability Testing, UX Strategy, Journey Mapping, Accessibility (WCAG)

UI Design: Design Systems, Component Libraries, Typography, Color Theory, Interaction Design, Mobile UI, Web UI, SaaS Dashboard Design

Product Design: Product Thinking, UX Audit, Design Validation, Dashboard UX, Developer Handoff, Stakeholder Collaboration, User-Centered Design

Tools: Figma, Adobe XD, Miro, Notion, Canva, Photoshop, Illustrator, Framer

Frontend Basics: HTML5, CSS3, Responsive Web Structure, Basic Frontend Development

PROFESSIONAL EXPERIENCE

UI/UX Designer | Lucid IT Solutions Pvt Ltd – Bengaluru

June 2023 – Present

- Crafted responsive web and mobile interfaces for hospitality and operational management platforms.
- Generated wireframes, user flows, interactive prototypes, high-fidelity UI screens, and scalable design components using Figma and Adobe XD.
- Collaborated with developers, stakeholders, and product teams to transform business requirements into intuitive user experiences.
- Improved workflow efficiency and navigation structures across multiple operational management modules.
- Contributed to dashboard design, analytics visualization, QR-based workflows, and restaurant management systems.
- Applied usability principles, accessibility standards, and responsive design practices to improve user experience.

KEY ACHIEVEMENTS

- Delivered hospitality and POS management modules used in real-time operational workflows.
- Improved usability and operational efficiency through structured dashboard design and optimized navigation systems.
- Built reusable UI components and scalable design patterns for faster product development.
- Collaborated effectively with cross-functional teams to ensure smooth product delivery and implementation.

KEY PROJECTS

Contactless Food Ordering System

Crafted a QR-based food ordering experience with Figma prototypes, adaptive layouts, and intuitive navigation for smoother restaurant operations.

Valet Parking Management System

Planned a valet management platform featuring vehicle tracking, parking allocation, wireframes, and usability-focused interaction patterns.

Guest Service Management Platform

Established a hospitality service platform with interactive prototypes, accessible interfaces, and simplified guest communication systems.

Analytics Mobile Dashboard

Delivered a mobile analytics dashboard with data visualization layouts, scalable components, and real-time business reporting features.

POS Management Dashboard

Built a POS platform featuring billing, order tracking, reusable design components, and structured information architecture for operational efficiency.

EDUCATION

Bachelor of Information Technology

Hindusthan College of Arts and Science, Coimbatore | 2020 – 2023

Higher Secondary Education

A.R.L.M Matric Higher Secondary School, Cuddalore

CERTIFICATION

- UI/UX Design with Figma – 5+ Real World Projects (Udemy)
 - HTML5 From Basics to Advanced Level (Udemy)
 - UI/UX for Beginners (Great Learning)
